

BRAIN INJURY CHANGES YOUR CLIENT FOREVER

DAVID GOLDIN

AV-RATED | STANFORD JD/MBA

I started actively representing survivors of brain injury and their families about a decade ago. This focus provides great interest and direction to my law practice.

Devastating injury to the brain is often invisible and must be made *visible* to obtain a fair verdict.

***Let me help you
achieve the true
value of your brain
injury cases.***

David L. Goldin, APC

You are your brain.

Everything you do, feel, touch, see, say, hear, smell, taste, think, believe, hope, doubt and remember comes from your brain.

It is time to break the silence of the traumatic brain injury epidemic.
